

Sealing Solutions for  
Pneumatic Applications

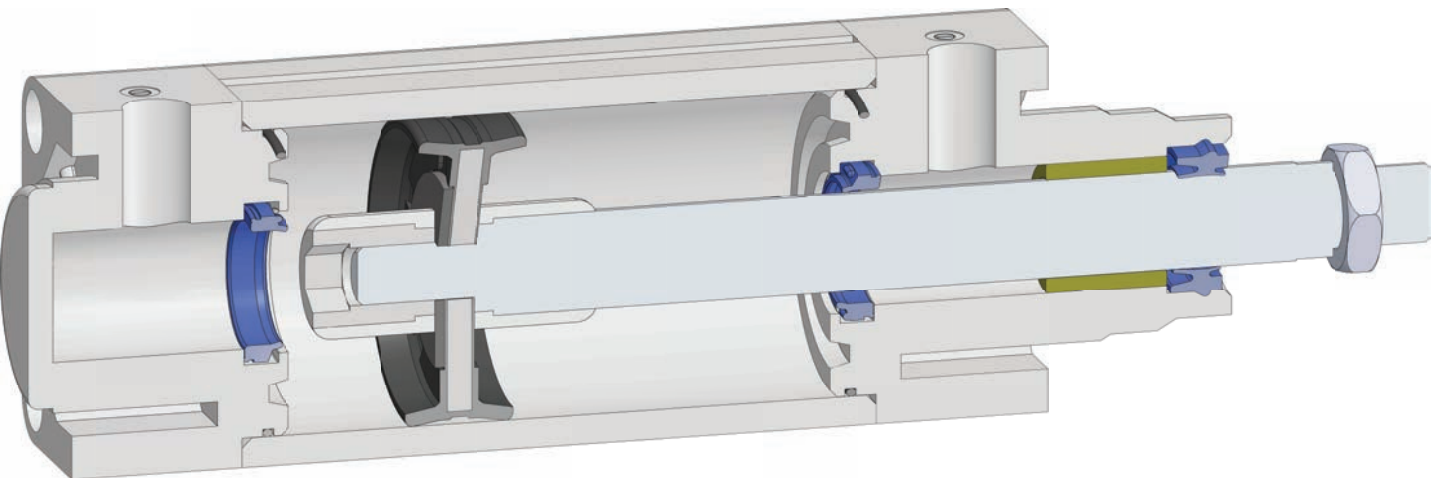

[www.alpkaucuk.com](http://www.alpkaucuk.com)

Global  
Sealing  
Solutions

# Sealing Elements for Pneumatic Applications

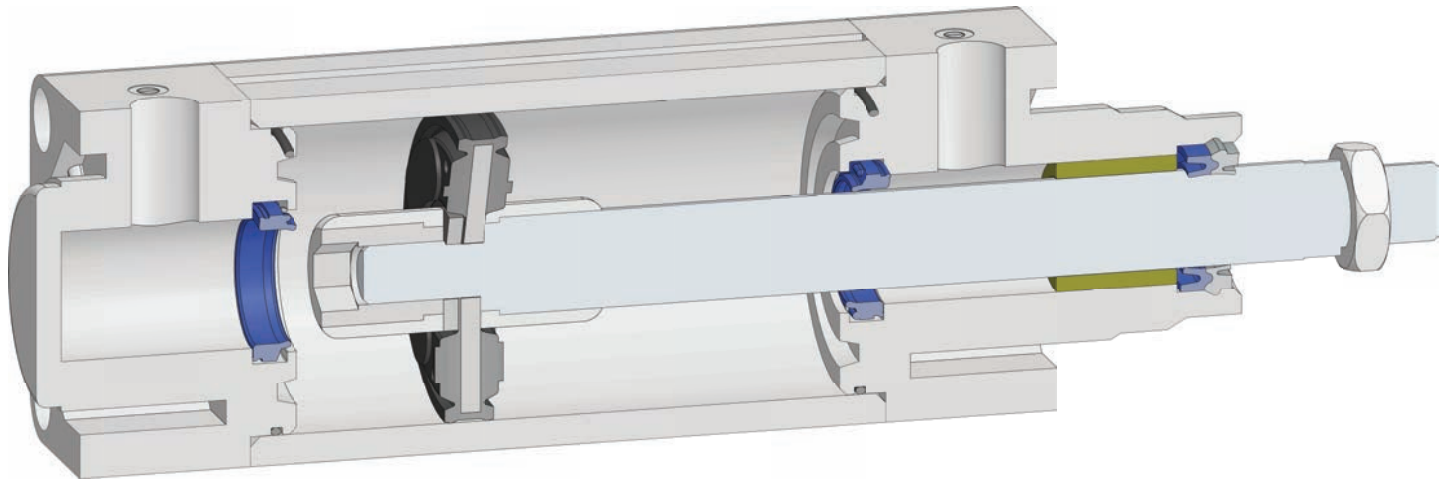

- Double acting capability with two nutring piston seals.
- Low friction providing uninterrupted movement.
- A855 Cushioning seal providing reliable operation.

- A801 Piston seal eliminating the need for piston head machining.
- Low friction providing uninterrupted movement.
- A855 Cushioning seal providing reliable operation.

# Sealing Elements for Pneumatic Applications

**A251** Piston Rod Guide Ring

**O-Ring**

**A805** Pneumatic Piston Seal

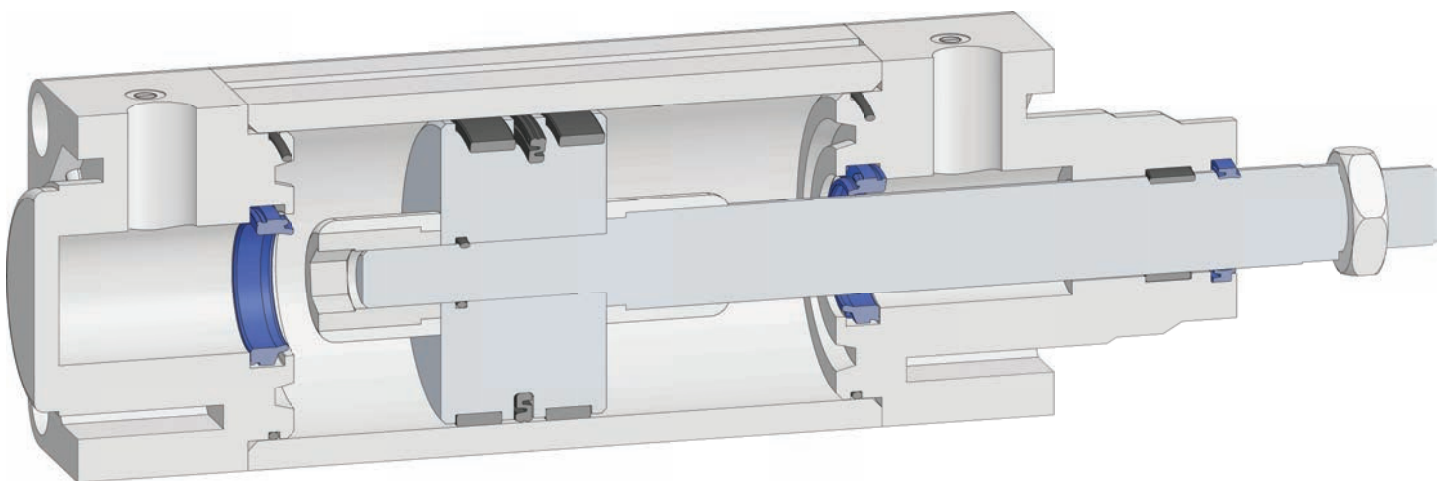

**A854** Heavy Duty Pneumatic Rod Wiper

**A855** Pneumatic Cushioning Seal

- A805 Piston seal that eliminates the need for piston head machining and provides reliable pressure application at the end of strokes thanks to the venting passages.
- A854 design with extra protection against particles such as welding slag that can be stuck on the rod.

**A251** Piston Rod Guide Ring

**O-Ring**

**A803** Pneumatic Piston Seal

**A853** Pneumatic Wiper Rod Seal

**A855** Pneumatic Cushioning Seal

- A803 Piston seal and A853 Pneumatic wiper rod seal suitable for narrow housings.
- A251 Guidening element with superior load bearing performance at the piston head.
- A855 Cushioning seal providing reliable operation.
